FREE [GWA] Autoresponder for Wordpress

This is your complete Autoresponder and Mailing List manager for Wordpress. An extensive plug-in with the capability of turning your simple Wordpress blog into a fully featured Double Opt-in List Builder and Administrator.

Here are the easy steps to follow to get you started.

1. Copy the entire /autoresponder-gwa dir into your /plugin dir so you have something like /wp-content/plugins/autoresponder-gwa/ar_gwa.php

2. Activate it on the Plugins page of your Wordpress administrator where it now appears.

3. Click the new Header Link for the [GWA] Autoresponder and UPDATE the various options.

4. Navigate to the Widgets Menu and [Add] the Autoresponder Widget. UPDATE the options.

5. You can UPDATE the Form HTML on the Main page and the changes will appear in the Subscription widgets.

6. You can COPY the Form HTML on the Main Page and include it anywhere, on any website.
 NOTE: PRESERVE THE HIDDEN FORM FIELDS OR THE FORM WILL NOT WORK. CLICK [RESET] TO FIXA BROKEN FORM.

7. On the Affiliate page you can enter your User ID to customize the affiliate referral form.

8. On the Edit Msg page you can delete the Default welcome message and add your own on the Add Msg page. Set the DAY equal to the number of days after joining the message should be sent to the subscriber.

Set DAY to 0 for the message to be sent immediately after they click the link in the confirmation email. Add as many messages as required. Only one message may be sheduled per day.

9. Mass Mail your entire list at once on the Email Leads page.

10. Import Leads using the appropriate form on the Add Msg page. Follow the instructions.

The Pro Version of the [GWA] Autoresponder for Wordpress offers multiple list creation and management. Our "Intelligent Queue" ensures all email gets sent and runs well on any shared or free web host.

Whether you are hosting one or a few small lists or building your IM Mega List you can use the Professional version of this plugin to handle your newletter promotions and mailings all from within your familiar Wordpress Administrator website.
