## == Description ==

The Engineering and Machinering WordPress theme is a simple and nice theme with all the standard WordPress functions.

It is widget ready with widget areas on top and on the sidebar. In the header has a searchform

## == Installation ==

1. Upload the "Engineering and Machinering" directory to /wp-content/themes/
  2. Login and navigate to Presentation tab and activate "Engineering and Machinering" WordPress theme.
  3. The theme has widgets areas on top for a small menu, main-menu and sidebar. Customize it by the Menu panel and widget panel.
- You can also upload a custom image in the header.

\* The design of this theme breaks if more than one row of menu items are added to the menu.
